## WORK EXPERIENCE

### Associate Software Engineer Hexaware Technologies

06/2022 - Present

Chennai

Sales Cloud Implementation for a medical device manufacturer company in US.

#### Achievements/Tasks

- The project involved building solutions for the sales process team of the client company to improve their daily sales activities experience and increased the number of sales by 20% for 5 months in a row.
- Worked on implementing Validation Rules using Apex and Flows. Also created Test Classes for the Apex.
- Developed LWC to display object and field metadata definition on the UI for export purpose and developed a solution to fetch picklist values of standard and custom objects.
- Created LWC solution to show a graphical display of percentage completion field on the Case layout.

- PCM

## SKILLS

Sales Cloud

Experience/Community Cloud

Lightning Web Components(LWC)

Apex

JavaScript

Data Import Wizard

PowerApps

Python

SQL

C/C++

AWS

HTML/CSS

## PERSONAL PROJECTS

### Salesforce Reusable Component (03/2023 - Present)

- I created a countdown timer to display the remaining days graphically until the closing opportunity. It also shows the hours, minutes, and seconds, which can be adjusted according to one's specific needs.
- Developed a solution that fetches all the data from the opportunity object in a Lightning Web Component (LWC) data table. The solution allows for filtering the data based on start or end dates, filtering by stage, and sorting the data as well.
- Built a custom lookup selection feature that enables dynamic property value changes and displays a list of values accordingly. Unlike the standard lookup, this custom implementation allows for selecting multiple values.
